

## Guided Tree Climbing Adventures

Guided tree climbing adventures allow outdoor enthusiasts to engage with trees and experience nature from a unique perspective.

- ❖ *Explore and discover life in the canopy*
- ❖ *Practice mindfulness while relaxing in the shade*
- ❖ *Enjoy the view of the surrounding landscape*
- ❖ *Learn to identify trees*
- ❖ *Learn fun and useful knots*
- ❖ *Discover a deeper connection with nature*
- ❖ *Climb a tree which has yet to be explored by another person*
- ❖ *Experience a unique outdoor adventure*

Recreational tree climbing adventures with Treetop Explorer, LLC provide a one-of-a-kind experience for individuals, couples, teams, groups and families.

Many of the trees we climb are between 100 and 200 years old, meaning some of them started growing before Wisconsin became a state. Trees record environmental history and reveal secrets to those who are fortunate enough to sit quietly amongst their branches.

Previous climbing experience is beneficial but not necessary. The climbing system, easy-to-understand directions and personal attention from our guides has participants of all abilities ascending on their own within minutes.

Bring your sense of adventure!

*Treetop Explorer climbing excursions provide an exciting and memorable experience, introducing you to the freedom and joy of exploring trees.*

We provide all the equipment and instruction so you can climb and access trees as easily as the arborists and researchers who do so on a daily basis. Your guides inspect every tree we climb. They set new ropes as required in order to get you to the highest point in the tree. Climbing along with our adventure guides enables you to explore at your pace and allows us to work together to help you maneuver efficiently and reach points you may not have though possible.

**Itineraries:**

**HALF DAY:** Tree time lasts about 3-4 hours.

- Bring a snack, book, camera, or journal!
- Schedule for a sunrise or sunset climb.
- Consider a full moon climb.
